Currently: Professor & Chairman of Psychiatry, University of Kansas at Wichita (deceased 6/10/98)

Collins E. Lewis, M.D., M.P.H., Psychiatry Resident, 1975-1977

Training: Supervised clinical and family study of alcoholics; trained in epidemiological methods and family studies.

Currently: Associate Professor of Psychiatry, Washington University.

William Coryell, M.D., Psychiatry Resident, 1977

Training: Supervised his participation in a reliability study of a new structured interview; trained in methods for conducting and interpreting reliability studies.

Currently: Professor of Psychiatry, University of Iowa.

John P. Rice, Ph.D., Postdoctoral Fellow, 1975-1977

Training: Directed reading about psychiatric genetics and genetic epidemiology; we jointly worked on extending methods for cultural inheritance and segregation analysis. Currently: Professor of Psychiatry

& Biostatistics, Washington University.

Andrew Scallet, Ph.D., Predoctoral Psychology Student, 1975-1976

Training: Supervised research on assessment and double-blind treatment studies of outpatients.

Currently: Research Psychologist, National Center for Toxicological Research, Jefferson, Arkansas

Lenore Teter, M.D., Psychiatry Resident, 1980

Training: Supervised research on psychiatric social adjustment of recent Russian immigrants.

Currently: Instructor in Psychiatry, Washington University, then private practice

Robert Desalle, B.S., Predoctoral Genetics Fellow, 1979

Training: Method of path analysis in studying inheritance of complex phenotype systems.

Currently: Completed dissertation in Genetics, Washington University.

Currently: Department of Biology, Yale University

Peter McGuffin, M.D., Postdoctoral Fellow, 1980-1981

Training: Advanced methods of genetic epidemiology including segregation, path, admixture, and linkage analysis.

Currently: former Professor & Chairman of Psychiatry, Cardiff, England; now MRC Director, London

Paul Van Eerdewegh, Ph.D., Predoctoral Fellow, 1980-1982

Training: Studies of statistical properties of copaths and selection in multivariate systems relevant in quantitative genetics.

Currently: former Assistant Professor in Psychiatry in Genetic Epidemiology, Washington University, now in biotechnology industry

Dennis O'Rourke, Ph.D., Postdoctoral Fellow, 1980-1983

Training: Advanced methods of genetic epidemiology including segregation, path, and linkage analysis.

Currently: Professor of Anthropology, University of Utah.

Anne-Liss von Knorring, M.D., Postdoctoral Fellow, 1982-1983.

Training: Methods of genetic epidemiology relevant to adoption studies.

Currently: Professor of Child Psychiatry, University of Uppsala, Sweden.

Soren Sigvardsson, D. Med. Sci., Predoctoral Fellow, 1981

Postdoctoral Fellow, 1983 Training: Methods of genetic epidemiology and multivariate analysis relevant to adoption studies; longitudinal and cross-fostering studies of adoptees with relevance to child psychiatry.

Currently: former Associate Professor of Child Psychiatry, Umea University (retired).

Nancy J. Cox, Ph.D., Postdoctoral Fellow, 1982

Training: Advanced methods of genetic epidemiology for studying psychiatric disorders.

Currently: Professor of Genetics, University of Chicago.

Eric Devor, Ph.D., Postdoctoral Fellow, 1982

Training: Advanced methods of genetic epidemiology in anthropology; population structure.

Currently: Research Assistant Professor, Department of Obstetrics & Gynecology, University of Iowa, Iowa City

Mark Zoccolillo, M.D., Psychiatry Resident, 1983

Training: Supervised design and analysis of clinical and social comparison of matched groups of outpatients with somatoform and affective disorders; study of parenting and home environmental influences on children of outpatients.

Currently: Assistant Professor of Psychiatry, Texas Tech

Edward Lauterbach, M.D., Psychiatry Resident, 1984

Training: Design and analysis of psychiatric follow-up studies.

Currently: Professor of Psychiatry, (Tenure) Mercer University School of Medicine, Macon, Georgia

Kara Forest, B.A., Biology Honors Student, 1986

Training: Etiology of anxiety states.

Currently: Medical school graduate, activity unknown

Wolfgang Baier, M.D., FRG Postdoctoral Fellow, 1987

Training: Genetic epidemiology of generalized minor seizures (collaborative project with Professor Doose at University of Kiel, FRG)

Currently: Child Neurologist, University of Kiel

David Craufurd, M.D., Wellcome Trust Fellow, 1987.

Training: Psychiatric Genetics.

Currently: Research Psychiatrist, St. Mary's Hospital, University of Manchester, England.

Sheila B. Gilligan, B.S., Predoctoral Graduate Student (1983- 1988)

Training: Quantitative genetics of common diseases.

Dissertation Topic: Genetic and Phenotypic Heterogeneity in Alcoholism (scheduled to complete Spring, 1988).

Currently: former Postdoctoral Fellow in Human Genetics, Medical College of Virginia (Dr. Andrew Heath), then Peace Corps in Africa, currently unknown)

Vicky Ryan, Undergraduate biology honors student (1987-1988)

Training: Techniques in family studies of alcoholism.

Currently: Medical School graduate, University of Missouri, currently unknown

David L. Garver, M.D., Sabbatical Leave from University of

Cincinnati, Depts. of Psychiatry and Pharmacology (Sept 88-Aug 89)

Training: Psychiatric genetics including clinical and molecular aspects.

Currently: Professor of Psychiatry, University of Louisville

Harald Aschauer, M.D., Medical Research Council
of Austria Fellow

Training: Neuropsychopharmacologist/psychiatrist coming for training in genetics of schizophrenia (Sept 87-March 1989).

Currently: Professor of Psychiatry in Vienna

Gabrielle Aschauer, M.D., Medical Research Council

Of Austria Fellow

Training: Neuropsychopharmacologist/psychiatrist coming

For training in genetics of schizophrenia (Sept 87-
March 1989).

Currently: Professor in Vienna

t C. Cloninger.
